

Linear Art design by Ely Fulton

I did this because it was easier than the lsu one

I did because i could have more color

I also did it because i knew how to do it

$$1 y = -\frac{2}{3}x + 17$$

$$2 y = x + 13$$

$$3 y = -x + 5$$

$$4 y = -x$$

$$5 y = x$$

$$6y = \frac{1}{1}x - 6$$

$$7y = x - 9$$

$$8y = -x - 9$$

$$9y = -x - 17$$

$$10 y = \frac{5}{4}x - 13$$
